Company: ILI Technologies (ILI)
Buy/Sell: Buy
Price: 0.115
Industry: oil and gas service
Shares OS: 35mill approx
Reason: I am simply looking for a trade. This company has been kicked to the curb very badly. Poor management and a lack of real direction has killed them. Now with new management I feel they are close to something. Stock has moved up on high volume recently. Maybe something is close? Bought it for the trade.
